WHAT IS CANADIAN CLINICAL TRIALS ASSET MAP (CCTAM)

- Part of the Action Plan to Help Attract More Clinical Trials to Canada; overseen by the CCTCC
- Web-based, “living”, easily searchable, interactive database of Canadian clinical research capabilities

CCTAM

Canadian Clinical Trials Asset Map

CCTAM: OBJECTIVES

- Showcase the tremendous assets we have in Canada to conduct clinical trials
- Better enable sponsors of clinical trials to identify clinical research sites and investigators
- Become a comprehensive database for all Canadian clinical research assets; the essential tool for anyone planning on conducting clinical research in Canada
- Position Canada as an attractive destination for the conduct of clinical trials in the global marketplace

DESIGN

Easy to search

No cost to contributors to use

The screenshot displays the CCTAM web application interface. At the top, there are logos for CCTCC, CCCEC, and CCTAM. Below the logos is a navigation bar with icons for Dashboard, Assets, Map, Discussion Board, Partners, and Support. The main content area shows an 'Asset List (563)' with a search bar and filters. The list is organized into a grid of profile cards for various investigators, including Dr. Axel Tosikyan, Dr. Alim Devani, Dr. Renaud Whitton, Dr. Julie Rousseau, Dr. Stewart P. Adams, Dr. Inès Chamakhi, and the Institute for Skin Advancement. Each card provides details such as Profile Name, Profile Type, Research Type, City, Description, Ethics Board, Disease / Conditions Studied, Patient Population, Phases Of Research, Year Established, and Last update. A search filter dropdown is visible on the right side of the interface.
